Typical Product Specifications & Properties

7-Ketolincomycin

CAS Number: : 17057-59-9

Specifications	Limits
Chemical Structure	 The chemical structure of 7-Ketolincomycin is a complex polycyclic molecule. It features a central benzene ring with a ketone group at the 7-position. This ring is fused to a five-membered ring containing an oxygen atom. Further fused is a six-membered ring with a nitrogen atom. The structure is highly stereospecific, with various chiral centers indicated by wedges and dashes. The molecule is shown in a perspective view, highlighting its three-dimensional nature.
