## Typical Product Specifications & Properties

# 9-Fluorenone-4-carboxylic acid

CAS Number: : 6223-83-2

| Specifications   | Limits                                                                        |
|------------------|-------------------------------------------------------------------------------|
| Molecular weight | 224.21                                                                        |
| EINECS           | 228-311-9                                                                     |
| SMILES           | <chem>c12c(C(=O)c3c1cccc3)cccc2C(=O)O</chem>                                  |
| InChI            | 1S/C14H8O3/c15-13-9-5-2-1-4-8(9)12-10(13)6-3-7-11(12)14(16)17/h1-7H,(H,16,17) |
| InChIKey         | AFQYQSWTVCNJQT-UHFFFAOYSA-N                                                   |
| Melting Point    | 225-227 &deg;C                                                                |
| BRN Number       | 2694801                                                                       |
