## Typical Product Specifications & Properties

# $\alpha$ , $\beta$ -bis (t-butylperoxy) diisopropylbenzene [6]

CAS Number: : 25155-25-3

| Specifications              | Limits                                                   |
|-----------------------------|----------------------------------------------------------|
| Direct Evaporative Cooling  | 180 c                                                    |
| Half-Life: 10 hr. -T1/2°C   | 119                                                      |
| Half-Life: 1 hr. - T1/2°C   | 139                                                      |
| % Active Oxygen (by weight) | 2.34-2.46                                                |
| % Assay / Description       | 39.5-41.5% Solid with Kaolin Clay, smaller Particle size |
| Melting Point               | 44-48 c                                                  |
| Molecular weight            | 338.49                                                   |
