## Typical Product Specifications & Properties

# Carbohydrazide

CAS Number: : 497-18-7

| Specifications | Limits                              |
|----------------|-------------------------------------|
| Density        | 1.1616 (-5 c)                       |
| Very Soluble   | in water, alcohol                   |
| Chloride       | 10 ppm Max                          |
| Sulfate        | 20 ppm Max                          |
| Silica         | 10 ppm Max                          |
| Moisture       | 0.2% Max                            |
| Hydrazine      | 500 ppm Max                         |
| Copper         | 1 ppm Max                           |
| Appearance     | White crystalline powder or pellets |
| Active Content | $\geq 99.0\%$                       |
| Color          | colorless crystal                   |
| pH             | 7.2 - 9.7 (12% solution)            |
