## Typical Product Specifications & Properties

# dextro,laevo-isoborneol

CAS Number: : 124-76-5

| Specifications   | Limits                                                                               |
|------------------|--------------------------------------------------------------------------------------|
| Assay            | 92.00 to 100.00 %                                                                    |
| Vapor Pressure   | 0.035000 mm/Hg @ 25.00 °C                                                            |
| Flash Point      | 200.00 °F.TCC                                                                        |
| Shelf Life       | 36 month(s) or longer if stored properly                                             |
| Odor Type        | balsamic                                                                             |
| Odor             | balsam camphor herbal woody                                                          |
| logP (o/w)       | 2.71                                                                                 |
| Appearance       | white crystalline solid                                                              |
| Melting Point    | 212.00 to 214.00 °C. @ 760.00 mm Hg                                                  |
| Storage          | store in cool, dry place in tightly sealed containers, protected from heat and light |
| Molecular weight | 154.24                                                                               |
