## Typical Product Specifications & Properties

# Dichloroethane Reagent Grade ACS

CAS Number: : 107-06-2

| Specifications            | Limits                            |
|---------------------------|-----------------------------------|
| Density                   | 1.2554 (204 c)                    |
| Very Soluble              | in water                          |
| Assay                     | 99.0% min (GC)                    |
| Water Content             | 0.03% max                         |
| Appearance                | Clear                             |
| Color (APHA)              | 10 max                            |
| Residue after evaporation | 20ppm max                         |
| Acid Content              | 0.003 meq/g (Titrable Acid)       |
| Vapor Pressure            | 100 mm hg (29.4 c)                |
| Refractive Index          | 1.445                             |
| Odor                      | chloroform-like odor, sweet taste |
| Molecular weight          | 98.96                             |
