## Typical Product Specifications & Properties

# disodium 5'-ribonucleotides

CAS Number: : 4691-65-0

| Specifications   | Limits                                  |
|------------------|-----------------------------------------|
| Slightly Soluble | in alcohol                              |
| Assay            | 97.00 to 100.00 %                       |
| Appearance       | white crystalline powder                |
| Insolubility     | in ether                                |
| Molecular weight | 392.17                                  |
| Color            | colorless to white crystal, char. taste |
| Solubility       | water                                   |
