## Typical Product Specifications & Properties

# Etafenone

CAS Number: : 90-54-0

| Specifications               | Limits                                                                                                      |
|------------------------------|-------------------------------------------------------------------------------------------------------------|
| Molecular weight             | 325.44                                                                                                      |
| EINECS                       | 202-002-9                                                                                                   |
| SMILES                       | <chem>CCN(CC)CCOc1ccccc1C(=O)CCc2ccccc2</chem>                                                              |
| InChI                        | 1S/C21H27NO2/c1-3-22(4-2)16-17-24-21-13-9-8-12-19(21)20(23)15-14-18-10-6-5-7-11-18/h5-13H,3-4,14-17H2,1-2H3 |
| InChIKey                     | OEGDFSLNGABBJ-UHFFFAOYSA-N                                                                                  |
| Melting Point                | < 25 &deg; C                                                                                                |
| Atmospheric OH Rate Constant | 1.39E-10 cm <sup>3</sup> /molecule-sec                                                                      |
| log P (octanol-water)        | 4.690                                                                                                       |
