## Typical Product Specifications & Properties

# Ethyl 4-(4-fluorophenyl)-4-oxobutanoate

CAS Number: : 1823386-91-9

Specifications	Limits
Chemical Structure	 The chemical structure shows a central four-membered ring (beta-lactone) fused to a five-membered ring containing a nitrogen atom. A phenyl ring is attached to the five-membered ring, with a fluorine atom at the para position. The entire structure is part of a larger molecule, with an ethyl ester group attached to the four-membered ring. The structure is labeled with 'parchem fine & specialty chemicals'.
