

## Typical Product Specifications & Properties

# Ethyl 4-hydroxycinnamate

CAS Number: : 1248462-73-8

Specifications	Limits
Chemical Structure	 <p>The chemical structure of Ethyl 4-hydroxycinnamate is shown. It consists of a benzene ring with a hydroxyl group (-OH) at the 4-position and an ethyl cinnamate group (-CH=CH-COOCH2CH3) at the 1-position. The structure is overlaid with a large, faint watermark that reads 'parchem fine &amp; specialty chemicals'.</p>
