

Typical Product Specifications & Properties

Ethyl 5-butoxy-1,3-oxazole-2-carboxylate

CAS Number: : 189028-68-0

Specifications	Limits
Chemical Structure	 <p>The chemical structure of Ethyl 5-butoxy-1,3-oxazole-2-carboxylate is shown. It features a five-membered 1,3-oxazole ring. At the 2-position of the oxazole ring, there is a carboxylate group (-COOEt). At the 5-position, there is a butoxy group (-OCH2CH2CH2CH3). The structure is drawn with stereochemistry indicated by wedges and dashes. A watermark for 'parchem fine & specialty chemicals' is visible in the background of the structure.</p>
