## Typical Product Specifications & Properties

# Ethyl Acetate, Kosher, FCC, NF

**CAS Number: : 141-78-6**

| Specifications | Limits |
|---|---|
| Identification | Conforms to IR Spectra |
| Description | Colorless liquid, Volatile at Low Temperature; Flammable |
| Specific gravity (@25/25° C) | 0.894 - 0.898 |
| Refractive Index | 1.370 - 1.375 |
| Assay | 99.0 - 100.5% (NF); > 99.0% (FCC) |
| Acid Value | <= 5.0 |
| Odor | Acetous, Ethereal |
| Solubility | Miscible with alcohol, ether, glycerin, most oils; 1mL dissolves in 10 mL water |
| Boiling Point | ~77C |
| Readily Carbonizable Substances | No dark zone develops within 15 minutes (NF); To pass test (FCC) |
| Distillation Range | 76 - 77.5C (FCC) |
