Typical Product Specifications & Properties

Fmoc-Phe(4-CF₂H)-OH

CAS Number: : 1808268-08-7

Specifications	Limits
Chemical Structure	 The chemical structure shows a complex molecule with a central benzene ring, a carboxylic acid group (-COOH) on the left, and a fluorenylmethyloxycarbonyl (Fmoc) protecting group on the right. The Fmoc group consists of a fluorene system attached to the carboxylic acid via an ester linkage. The fluorene system has a nitrogen atom at the 9-position. The carboxylic acid group is at the 1-position of the fluorene system. The Fmoc group is attached to the 2-position of the fluorene system. The structure is labeled with 'parchem fine & specialty chemicals'.
