

Typical Product Specifications & Properties

Furan-2-ylmethyl-phenethyl-amine

CAS Number: : 188882-24-8

Specifications	Limits
Chemical Structure	 <p>The chemical structure of Furan-2-ylmethyl-phenethyl-amine is shown. It features a furan ring substituted at the 2-position with a (1-phenylethyl)amino group. The structure is drawn with stereochemistry, showing the furan ring, the amino group, and the phenethyl side chain. A watermark for 'parchem fine & specialty chemicals' is visible in the background.</p>
