

## Typical Product Specifications & Properties

# Geranium Oil

CAS Number: : 8000-46-2

| Specifications           | Limits                             |
|--------------------------|------------------------------------|
| Relative Density (20 °C) | 0.844 - 0.906                      |
| Refractive Index @ 20° C | 1.460 - 1.472                      |
| Appearance               | Green yellow to amber clear liquid |
| Odor                     | Peppermint-like and rosary odor    |
| Insolubility             | in glycerin                        |
| Refractive Index         | 1.454-1.472 (20 c)                 |
| Flash Point              | 185 f                              |
| Specific gravity         | 0.89                               |
| Solubility               | cold water                         |
