

## Typical Product Specifications & Properties

# GUANIDINE, (m-METHYLBENZYL)-

CAS Number: : 1783349-30-3

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a benzene ring with a methyl group at the meta position and a guanidino group at the other meta position. The guanidino group consists of a carbon atom double-bonded to one nitrogen atom and single-bonded to two other nitrogen atoms, one of which is part of a five-membered ring fused to the benzene ring. The structure is labeled with 'H', 'O', and 'N' atoms and includes stereochemical wedges and dashes. A watermark for 'parchem fine &amp; specialty chemicals' is visible in the background.</p>
