

## Typical Product Specifications & Properties

# H-Arg-Pro-Asp-Val-Phe-OH

CAS Number: : 149694-32-6

Specifications	Limits
Chemical Structure	 <p>The chemical structure of H-Arg-Pro-Asp-Val-Phe-OH is a linear pentapeptide. It consists of five amino acid residues linked by peptide bonds: Arginine (Arg), Proline (Pro), Aspartic acid (Asp), Valine (Val), and Phenylalanine (Phe). The structure is shown in a 3D representation with stereochemistry indicated by wedges and dashes. The N-terminus is a hydrogen atom (H) and the C-terminus is a hydroxyl group (OH). The structure is overlaid with a large, faint 'parchem' watermark and the text 'fine &amp; specialty chemicals'.</p>
