## Typical Product Specifications & Properties

# H-D-Allo-Thr-OH

CAS Number: : 24830-94-2

| Specifications      | Limits                                                           |
|---------------------|------------------------------------------------------------------|
| Molecular weight    | 119.12                                                           |
| EINECS              | 246-488-0                                                        |
| InChI               | 1S/C4H9NO3/c1-2(6)3(5)4(7)8/h2-3,6H,5H2,1H3,(H,7,8)/t2-,3-/m0/s1 |
| InChIKey            | AYFVYJQAPQTCCC-HRFVKAFMSA-N                                      |
| Refractive Index    | -10 &deg; (C=5, H2O)                                             |
| Storage Temperature | Store at room temperature.                                       |
| Alpha               | -33.5 ° (c=1, 1N HCl 24 °C)                                      |
| Water solubility    | soluble                                                          |
| BRN Number          | 1721644                                                          |
| Melting Point       | 276 &deg;C (dec.)                                                |
