Typical Product Specifications & Properties

Hexa-tert-butylidisilane

CAS Number: : 100103-39-7

Specifications	Limits
Chemical Structure	 The chemical structure shows a central silicon-silicon bond. Each silicon atom is bonded to three tert-butyl groups. The tert-butyl groups are represented as isopropyl groups attached to a methyl group. The structure is shown in a 3D perspective with wedge and dash bonds to indicate stereochemistry.
