

Typical Product Specifications & Properties

Hexabenzob[bc,ef,hi,kl,no,qr]corone

CAS Number: : 190-24-9

Specifications	Limits
Chemical Structure	 <p>The chemical structure of Hexabenzob[bc,ef,hi,kl,no,qr]corone is a complex polycyclic aromatic hydrocarbon. It features a central corone-like core with six benzene rings fused to it in a specific arrangement. The structure is shown with stereochemistry, including wedged and dashed bonds, and a nitrogen atom is visible in the lower right portion of the fused ring system. A watermark for 'parchem fine & specialty chemicals' is overlaid on the structure.</p>
