

Typical Product Specifications & Properties

Hexapeptide 9

CAS Number: : 1228371-11-6

Specifications	Limits
Chemical Structure	 <p>The chemical structure of Hexapeptide 9 is a complex polycyclic molecule. It features a central six-membered ring with a nitrogen atom (N) at one position. This ring is fused to several other rings, including a five-membered ring with an oxygen atom (O) and a six-membered ring with a hydroxyl group (OH). The structure is highly branched and contains multiple hydroxyl groups and a nitrogen atom. The molecule is shown in a 3D perspective view, with the nitrogen atom highlighted in blue and the oxygen atoms in red. The structure is overlaid with a large, faint watermark that reads "parchem fine & specialty chemicals".</p>
