

Typical Product Specifications & Properties

HIV-2 Pcs cyclic disulfide

CAS Number: : 119290-15-2

Specifications	Limits
Chemical Structure	 <p>The chemical structure of HIV-2 Pcs cyclic disulfide is a complex polycyclic molecule. It features a central six-membered ring with a disulfide bridge (-S-S-) connecting two sulfur atoms. This central ring is fused to several other rings, including a five-membered ring with a hydroxyl group (-OH) and a nitrogen atom. The structure is highly stereospecific, with various chiral centers indicated by wedged and dashed bonds. A watermark for 'parchem fine & specialty chemicals' is visible in the background of the structure.</p>
