## Typical Product Specifications & Properties

# (1 $\alpha$ ,2 $\alpha$ ,3 $\alpha$ ,5 $\beta$ )-1,2,3,5-tetramethylcyclohexane

CAS Number: : 19899-32-2

| Specifications     | Limits                                                                                                                                                                                                  |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight   | 140.27                                                                                                                                                                                                  |
| EINECS             | 243-419-6                                                                                                                                                                                               |
