## Typical Product Specifications & Properties

# P-Vinylphenyl Isothiocyanate

CAS Number: : 1520-20-3

| Specifications     | Limits                                                                                                                                    |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight   | 161.22                                                                                                                                    |
| SMILES             | <chem>C(=Nc1ccc(C=C)cc1)=S</chem>                                                                                                         |
| InChI              | 1S/C9H7NS/c1-2-8-3-5-9(6-4-8)10-7-11/h2-6H,1H2                                                                                            |
| InChIKey           | VLYLPZIBVLBOLH-UHFFFAOYSA-N                                                                                                               |
| Chemical Structure |  59739 P-Vinylphenyl Isothiocyanate chemical structure |
