## Typical Product Specifications & Properties

# Itraconazole

CAS Number: : 84625-61-6

| Specifications     | Limits                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight   | 705.633                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Assay/Purity       | Typically NLT 98%                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Chemical Structure | <br>The chemical structure of Itraconazole is shown, featuring a benzimidazole core with a 2,2-dimethyl-1,3-dioxolane-5-carboxamide group at position 2, a 4-chlorophenyl group at position 3, and a 1H-imidazo[4,5-b]pyridine-2-carboxamide group at position 4. The structure is overlaid with the Parchem logo and text 'fine & specialty chemicals'. |
