## Typical Product Specifications & Properties

# Lithium Nitride

CAS Number: : 26134-62-3

| Specifications              | Limits                |
|-----------------------------|-----------------------|
| Molecular weight            | 34.82                 |
| Melting Point               | 845C                  |
| Assay                       | min. 94%              |
| Appearance                  | fine red-brown powder |
| Density                     | 1.38 g/ccm            |
| Theoretical lithium content | 59.8%                 |
