## Typical Product Specifications & Properties

# Methyl 12-Hydroxy Stearate

CAS Number: : 141-23-1

| Specifications       | Limits                                    |
|----------------------|-------------------------------------------|
| Melting Point        | 48 c                                      |
| Insolubility         | in water                                  |
| Slightly Soluble     | in org. solvs.                            |
| Saponification Value | 170-178 mg KOH/ g                         |
| Molecular weight     | 314.57                                    |
| Color, ASTM          | 2.5 Max.                                  |
| Color Lovibond 5 1/4 | 1.5 Max. (Red)                            |
| Hydroxyl Value       | 160-178 mg KOH/ g                         |
| Acid Value           | 10 Max. mg KOH/ g                         |
| Iodine Value         | 5 Max.                                    |
| Appearance           | Off white flakes (at ambient temperature) |
| Color Lovibond 5 1/4 | 3 Max. (Yellow)                           |
