## Typical Product Specifications & Properties

# Methyl 5-bromo-2-chlorobenzoate

CAS Number: : 251085-87-7

| Specifications     | Limits                                                                                                                    |
|--------------------|---------------------------------------------------------------------------------------------------------------------------|
| Molecular weight   | 249.489                                                                                                                   |
| Appearance         | White crystalline powder                                                                                                  |
| Chemical Structure | <br><chem>COC(=O)c1cc(Br)ccc1Cl</chem> |
