## Typical Product Specifications & Properties

# N-[4,4-Dimethyl-1-(phenylsulfanyl)pent-2-yn-1-yl]aniline

CAS Number: : 147701-85-7

| Specifications     | Limits                                                                                                                                                                 |
