## Typical Product Specifications & Properties

# N-Tertiarybutyl-2-benzothiazole-sulfenamide

CAS Number: : 95-31-8

| Specifications            | Limits                                                                                                                                                                                                   |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Appearance                | Milky white or light yellowish brown powder                                                                                                                                                              |
| Particle Size             | =<0.10% (150um)                                                                                                                                                                                          |
| Assay                     | =<95                                                                                                                                                                                                     |
| Loss on Drying            | =>0.30%                                                                                                                                                                                                  |
| Methanol                  | =<1.0% (Insoluble)                                                                                                                                                                                       |
| Free Amine & Amine salts. | =<0.5                                                                                                                                                                                                    |
| Ash Content               | =< 0.30%                                                                                                                                                                                                 |
| Melting Range             | =>104 ~ =<115 degC                                                                                                                                                                                       |
