## Typical Product Specifications & Properties

# NATURAL ISOBUTYL ACETATE

CAS Number: : 110-19-1

| Specifications               | Limits                                                        |
|------------------------------|---------------------------------------------------------------|
| Acid Value                   | 1.0 max                                                       |
| Refractive Index @ 20° C     | 1.389-1.392                                                   |
| Molecular weight             | 116.16                                                        |
| Specific gravity (@25/25° C) | 0.862-0.871                                                   |
| Assay                        | 98.0% min (as C <sub>6</sub> H <sub>12</sub> O <sub>2</sub> ) |
| Appearance                   | Colorless liquid                                              |
