

Typical Product Specifications & Properties

Oxalyl bis(benzylidene)hydrazide

CAS Number: : 6629-10-3

| Specifications | Limits |
|---------------------------|-------------------------|
| Physical Form | crystalline powder |
| Melting Point | >300C |
| Density | 0.216 kg/L |
| Color | 65 APHA (1% in DMF) |
| Auto Ignition Temp | 380C |
| Appearance | white solid |
| Particle Size | 99 wt% passing 200 mesh |
| Acidity | 0.08 wt% as Oxalic Acid |
| Saponification Equivalent | 144 to 150 |
| Assay | 97.0% min |
