## Typical Product Specifications & Properties

# S-Ethyl diisobutylthiocarbamate

CAS Number: : 2008-41-5

| Specifications      | Limits                                                            |
|---------------------|-------------------------------------------------------------------|
| Molecular weight    | 217.37                                                            |
| EINECS              | 217-916-3                                                         |
| InChI               | 1S/C11H23NOS/c1-6-14-11(13)12(7-9(2)3)8-10(4)5/h9-10H,6-8H2,1-5H3 |
| InChIKey            | BMTAFVWTTFSTOG-UHFFFAOYSA-N                                       |
| Storage Temperature | 0-6&deg;C                                                         |
| Boiling Point       | 130&deg;C (10 mmHg)                                               |
| Merck               | 13,1545                                                           |
| Density             | 0.9402                                                            |
