## Typical Product Specifications & Properties

# Sodium Hexametaphosphate (Fragrance Grade)

CAS Number: : 10124-56-8

| Specifications   | Limits                              |
|------------------|-------------------------------------|
| Assay            | 70.00 to 100.00 %                   |
| Appearance       | white powder                        |
| Melting Point    | 1184 f                              |
| Color            | colorless to white powder or flakes |
| Odor             | odorless                            |
| Specific gravity | 2.181                               |
| pH               | 6.0-7.7                             |
| Solubility       | water                               |
| Molecular weight | 611.76                              |
