## Typical Product Specifications & Properties

# t-Butyl Peroxypivalate

CAS Number: : 927-07-1

| Specifications     | Limits                                                                                                                       |
|--------------------|------------------------------------------------------------------------------------------------------------------------------|
| Density            | 0.854 (2525 c)                                                                                                               |
| Insolubility       | in water and ethylene glycol                                                                                                 |
| Melting Point      | 19 c                                                                                                                         |
| Molecular weight   | 174.27                                                                                                                       |
| Color              | colorless liquid                                                                                                             |
| Flash Point        | (oc) 155 f                                                                                                                   |
| Solubility         | most org. solvs.                                                                                                             |
| Chemical Structure | <br>parchem<br>fine & specialty chemicals |
| Assay              | 74 - 76%                                                                                                                     |
| EINECS             | 213-147-2                                                                                                                    |
