Typical Product Specifications & Properties

Thymidine

CAS Number: : 50-89-5

Specifications	Limits
Chemical Structure	 The chemical structure of Thymidine is shown, featuring a thymine base (a pyrimidine ring with a methyl group at the 5-position and a carbonyl group at the 2-position) attached to a deoxyribose sugar. The sugar is in its cyclic form, with hydroxyl groups at the 2' and 3' positions and a hydroxymethyl group at the 4' position. The thymine base is connected to the sugar via a glycosidic bond at the 1' position.
