## Typical Product Specifications & Properties

# Vitamin E Acetate

CAS Number: : 58-95-7

| Specifications      | Limits                                                                                                                               |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| EINECS              | 200-405-4                                                                                                                            |
| Molecular weight    | 472.74                                                                                                                               |
| Alpha               | 3 ° (c=2, in ethanol 25 °C)                                                                                                          |
| Refractive Index    | 1.496                                                                                                                                |
| Boiling Point       | 224 °C/0.3 mm Hg                                                                                                                     |
| Solubility          | Practically insoluble in water, freely soluble in acetone, in anhydrous ethanol and in fatty oils, soluble in ethanol (96 per cent). |
| Stability           | Stable. Incompatible with strong oxidizin                                                                                            |
| Color               | yellow                                                                                                                               |
| Storage Temperature | 2-8°C                                                                                                                                |
| Water solubility    | <0.1 g/100 mL at 17 ±186°C                                                                                                           |
| Melting Point       | ~25 °C                                                                                                                               |
| Flash Point         | >230 °F                                                                                                                              |
