

Typical Product Specifications & Properties

Myristic Acid

CAS Number: 544-63-8

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of Myristic Acid, a saturated fatty acid with a 14-carbon chain. The structure is drawn in a skeletal format with a carboxylic acid group at the left end. Below the structure is the Parchem logo, which consists of two interlocking circles above the word "parchem" in a lowercase, sans-serif font, with the tagline "fine & specialty chemicals" underneath.</p>
Acid Value, mg KOH/g	244 - 248
Iodine Value of Glycerides	0.8 Max
Saponification Value	245 - 249
Titer	52 - 54
Color, APHA; ASTM D 1209	Max, Lovibond 5 ¼" : 1.5 Yellow, 0.6 Red
Fatty Acids (C16)	-
C12	1 % Max
