

## Typical Product Specifications & Properties

# Propylheptyl Caprylate

CAS Number: 868839-23-0

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of Propylheptyl Caprylate, which is a diester with a propyl group and a heptyl group on one side of the ester linkage, and a capryl group on the other. The structure is drawn in a skeletal format with red oxygen atoms. Below the structure is the Parchem logo, which consists of the word 'parchem' in a lowercase, sans-serif font, with 'fine &amp; specialty chemicals' written in a smaller font underneath. The logo is overlaid on a faint background of the Parchem symbol, which is two interlocking circles.</p>
