

## Typical Product Specifications & Properties

# Sodium Carbonate

CAS Number: 497-19-8

| Specifications     | Limits  |
|--------------------|---|
| Chemical Structure |  <p>The image shows the chemical structure of sodium carbonate, <math>\text{Na}_2\text{CO}_3</math>. It features a central carbon atom (C) double-bonded to one oxygen atom (O) and single-bonded to two oxygen atoms (O). Each of these single-bonded oxygen atoms is coordinated to a sodium ion (<math>\text{Na}^+</math>). The structure is presented in a light gray, semi-transparent style. Below the structure is the Parchem logo, which consists of two interlocking loops, and the text "parchem" in a lowercase, sans-serif font, with "fine &amp; specialty chemicals" written in a smaller font underneath.</p> |
