Section 2. Hazards Identification

Classification of the substance or mixture

Not classified as a hazardous substance or mixture

GHS Label Elements

Pictograms: N/A

Signal word: N/A

Hazard and precautionary statements

None

Non Dangerous, Non Hazardous product, usually accepted as a safe commodity (GRAS) in accordance to the food, drugs, and cosmetics legislation.

Section 3. Composition / Information on Ingredients

Common Name Babassu Oil

COMPONENT	CONCENTRATION
Babassu Oil	100%

Section 4. First Aid Measures

Skin Contact: Can be removed from the skin just by washing with soap and water.

Inhalation: Expose the individual to fresh air.

Section 5. Firefighting Measures

Classification: No data available.

Extinguishable By: CO₂ chemical powder, sand.

Special Procedures for Firefighting: The use of masks is recommendable. Do avoid the use of water directly over the flames, it could disperse the oil and thus the fire. Use water to keep cool the containers which are exposed to the fire.

Ignition Risks and Unusual Explosions: None.

Section 6. Accidental Release Measures

Personal Precautions

Eliminate all sources of ignition: Not applicable

Dust Control: Not applicable

Prevention of inhalation and contact with skin, mucous membranes, and eyes: Not applicable

Environmental Precautions

Alarm System: Not applicable

Methods for Cleaning: Soak up with absorbent material, wash the area with water, and discard the material according to local regulations. The empty container should be cleaned, reconditioned or destroyed.

In case of spillage on the soil surface the superficial layer of the soil should be removed and get rid of local material in accordance with local regulations.

Section 7. Handling and Storage

Keep away from fire/flames or excessive high temperatures.

Section 8. Exposure Controls / Personal Protection

Limit: None as liquid and 10 mg/m³ as a vapor. Excessive exposure to the oil vapor may affect the breathing system.

Skin Absorbance: Sensitive individuals may present dermatology alterations after long exposition to the oil.

Chronic or Lethal Health Risks: None.

Risk for Health (Acute and Chronic): None.

Personal Protection

Masks: Desirable but not mandatory.

Ventilation: Desirable but not mandatory.

Gloves: Required.

Glasses: Required.

Section 9. Physical and Chemical Properties

Ignition Point (Cleveland Cup): > 228°C

Section 10. Stability and Reactivity

Stability: Spontaneous combustion may occur.

Conditions of Prevention: Big surfaces exposed to oxygen may result in polymerization and heating.

Incompatibility with Other Materials: None.

Dangerous Decomposition or Sub-products: None.

Dangerous Polymerization: None.

Section 11. Toxicological Information

No information available

Section 12. Ecological Information

No information available

Section 13. Disposal Considerations

Waste Treatment Methods: Dispose of product and contaminated packaging in accordance with all local, state, and federal environmental control regulations.

Section 14. Transport Information

Not a dangerous material according to the above regulations. Not regulated by the US DOT.

Section 15. Regulatory Information

No information available

Section 16. Other Information

Disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
